RUSSIANS HAVE THEIR EYES ON PRAGUE,  
THE BEAUTIFUL CAPITAL OF BOHEMIA

Here is a view of Prague, capital of Bohemia and second largest city in Austria. It is one of the objective points of the Czar's army now invading Austria. The picture shows the city hall from across the river Elbe.

Turkey Breaks Relations With  
Four Countries and Ministers  
Demand Passports on Leaving

Speculation Rife on Action of Balkan Powers; Active Operations Are Started By British And Russians Against Ottoman Empire; German Navy Continues Active

LONDON, Nov. 4.—Turkey has now definitely broken off diplomatic relations with Great Britain, France and Russia and Serbia. Her diplomatic representatives in the capitals of these countries, acting on orders of the Porte, demanded and received passports. Some of them have already left their posts, while others depart tomorrow.

Although no statement of the effect is given out it is understood Turkey's apology for actions here of the fleet in bombarding Russian Black Sea ports and Russian ships, proved unacceptable to the powers of the Triple Entente, in that Turkey was not prepared to accede to the demand that German officers in her service be dismissed and ships purchased from Germany be dismantled, powers which the Ottoman government has thus defied are already taking a war-like action against Turkey.

The British have destroyed Fort Akabiah in Arabia. Russians have invaded Asia Minor and the Anglo-French fleet is bombarding forts of the Dardanelles.

Now that Turkey has aligned herself among the nations of war, speculation is what other Balkan powers will do. Greece is said to be preparing to take sides with the allies, while Bulgaria has given assurances of her neutrality. Bulgaria, however, is mobilizing for as the Bulgarian diplomat said "With Turkey in the area of war, Bulgaria must be prepared for any eventuality."

Next to the Turkish situation the appearance of German warships off the coast of England is causing most discussion in this country. There is a disposition among naval men to believe that no serious raid is intended but that Germans hoped to induce British warships to follow them and by laying mines as they retired to catch some bigger ships as they did the submarine D-5.

The fact that Germans did lay mine seems to indicate to naval experts that ships engaged in this work are old ones. These experts argue that Germany would not take such risks with new vessels. As they if proven their contention, experts say the first on the British cruiser Naloyon, which resulted in slight damage to that vessel, showed the Germans are not armed with modern guns.

Official reports of fighting on land as issued today recorded advances at various points and repulses of attacks at others.

There is no great change in the situation according to these records. It is announced the Germans have given up positions along the Yser, having been driven out of there by flooded country and the gun fire of the allied troops and warships.

The Germans, however, kept up attacks on the allied lines around Ypres where the British are fighting. Although fighting at this point has not yet really commenced the Germans continue to bring up reinforcements and under the eyes of the emperor are preparing to make another big attempt to get through to the coast.

JAPS WOULD ATTACK  
GERMANS BARE HANDED

TOKIO, Nov. 4.—A Round Robin written in blood and signed by five hundred bluejackets requesting permission to dash into the bay and capture Meyer Waldeck, the German Governor of Kiao-Chow, has been refused by officers of the Japanese fleet. A ball of smoke envelopes Tsing Tau. Sailors are driving their last mines while the Austrian cruiser Kaiserin Elizabeth shells them continuously. Soldiers on the Shan-Teng railway complain they were attacked by Chinese civilians.

GERMAN ATTACK IN  
GREAT STRENGTH

LONDON, Nov. 4.—That four German dreadnoughts and four German cruisers took part in yesterday's engagement off the east coast of England is confirmed by the crew of the steam drifter Garrigill. According to the skipper of the drifter, the German ships appeared through a mist about sixteen miles east and northeast of Lowestoft at 2 o'clock in the morning. Firing at the British cruiser Halcyon lasted for fifteen minutes. The skipper also says two British submarines in addition to D-5, which was sunk by striking a mine were pursued by the Germans.

RUSSIANS SUDDENLY  
THROW GERMAN BACK

PETROGRAD, Nov. 4.—The Russian general staff official report says: "A sudden change is noted since yesterday on the east Prussian front where the enemy recently on the defensive nearly everywhere, has begun to retreat at certain points. This retreat is precipitated on the enemy's left wing which is vigorously thrown back toward Biala and Lyck and our troops took Bakalarjevo, capturing a German company and supplies, while on the left bank of the Vistula river the Germans continue a precipitate retreat toward the frontier. Their rear guard is dislodged from Kole and Przechodz, and yesterday we drove back the Austrians toward Kielce, which we occupied, taking 600 prisoners and several machine guns. We also won a decisive victory over the Austrians along the entire front from Kielce to Sandomir, and the enemy retreated hurriedly. We took Sandomir yesterday. We took Sandomir which is a good strategic point."

"In the region south of Kielce during the past week we captured 200 officers and 15,000 soldiers and many cannon and machine guns. Last night the Austrians made a series of fiery attacks which failed, after which they retreated. Our troops took a firm footing in the region of Nisko and Rudnik, and there is nothing to report from the remainder of the front. The Turkish fleet is concentrated in the Black Sea with a base in the Bosphorus, and is apparently evading a fight with our forces."

BRITISH CRUISER  
BOMBARDERS ARABIAN TOWN.

LONDON, Nov. 4.—The British cruiser Minerva has bombarded the Arabian town of Diddah (Juddah) on the Red Sea.

## MAP SHOWS WHERE GREAT ARMIES FIGHT

WAR REPLACES ELECTION IN NACO AFTER  
TWO DAYS OF EXCITEMENT; ATTENTION  
AGAIN TURNED TO MAYTORENA AND HILL

General Maytorena And Soldiers Leave Nogales For Cananea; Carranza Says He Will Fight To Finish—Mexico Boasts Two Presidents And Two Provisional Capitals

(Special to the Review)

NACO, Nov. 4.—Momentarily elections dimmed the Mexican situation here. Then there was the usual reaction—results were learned, and the populace have returned their interest to the battle which is sure to happen within the next week, and to the actions of the two command-American troops on this side of the line.

General Billa, commander of the division of the southwest of the United States troops, will arrive in Naco this morning from Douglas, where he spent yesterday. He comes from his headquarters at Fort Bliss, Texas, and is making a tour of inspection of the several camps along the border. He will probably go from here to Fort Huachuca, then returning to El Paso.

Reports which went to General Billa early in the siege of Naco concerning alleged clashes of the border patrol and the civil authorities have been corrected, and he comes to Naco this time on the sole mission of finding how the camp and the soldiers of the United States compare with the demands of the national authorities. He will spend his time in inspecting everything and in finding out at first hand the status of the Mexican situation at this point. It is thought he will also look into the matter of an embargo on arms and ammunition and report this matter to the war department.

Concerning the actions of the Maytorena troops in the neighborhood of the border, much was yesterday heard and reported about the city, but there was little news of importance which received official confirmation.

However, Maytorena is in company with 400 additional Federal soldiers who have recently arrived, left Nogales early this morning. When his train pulled out of the station the sixteen cannon which he brought up from Guaymas were already loaded on flat cars with ammunition and other guns and equipment, and orders were issued for their immediate shipment. It was not learned here if they were shipped yesterday, but it is thought they will be sent out as soon as possible and will follow up to where the Maytorena troops are encamped in time for the attack which the Yaqui leader has announced will be made as soon as he can complete his arrangements.

In the hill camp in Naco there is little of importance to announce. Yesterday another shipment of arms and ammunition was had, and in all it is said there are over 1,000,000 rounds of ammunition on hand awaiting the appearance of the Indians. The defenses about the city have been strengthened substantially. New and better barbed wire entanglements have been built outside the ditch.

HUNT MAINTAINS LEAD OVER CAMERON  
AND WILL CARRY STATE BY MAJORITY  
OF 2,000; CAMPBELL RUNNING SECOND

Campbell, Republican, May Beat Miller Out For Tax Commission; State Ticket Safe For Democrats Otherwise; Gila County Has Less Wets Than Expected; Republican Landslide Appears Greater As Eastern States Count Ballots—Suffrage Defeated

People Decree That Fifteen Murderers Shall Hang In Downing Hunt Referendum On State Law—Other Amendments Much In Doubt, But Most Fail Of Passage

The state is dry by at the least 2,500 votes. The majority may reach 3,500 votes or more. There is no definite grounds for fixing the exact number by which the amendment will carry, but the saloon men, the state democrats central committee, and others allied with politics generally concede that the election is carried for the dries.

Cochise county, according to the latest estimates, will carry for the wets by a majority of some 750 to 1,000. Twenty six of the outside precincts of the county, including two of the Douglas precincts and Pirtleville give the dries a majority. The standing of the county to date is, Wets 1290 Dries 1414. In addition the vote in Bisbee precinct 1, gives the dries 267 and the wets 459.

Hunt, according to the best of estimates will carry the state governorship by 2,000 majority, though the Republicans have not yet conceded the election of the Democratic candidate. The twenty six precincts of this county give Hunt 543 and Cameron 184. However, many of the smaller precincts are going for Cameron, and there is a small chance of his nosing out in the head of the race. The northern part of the state, and Pima county are all of them reported to have given Cameron good majorities.

In the race for state supreme bench the three candidates now in office are leading the state. Ross is nineteen votes ahead of Cunningham so far as the vote in the county has progressed, with Franklin a close third. The remainder of the state democratic ticket seems elected. However, Cochise county has so far elected Campbell. In the twenty six precincts he received seventeen majority over Miller while Bisbee ward 1 gave him a majority of twenty four over Miller. There is no doubt of the election of Zander.

Twenty-seven precincts have been returned in Cochise county, as follows. They include two Douglas precincts and Pirtleville, giving the following count:

The count of the votes in Bisbee is proceeding slowly, and when the Review went to press this morning there was small chance of the second and third wards finishing their vote before noon today. In fact, it is probable that neither of them will finish before evening, as the election board is being fast, and as the number of votes cast in each was heavy.

The first ward finished their counting early last evening. They had worked faster and harder than either of the other wards, and they had a smaller vote to count than one of the remaining wards. In each of the remaining wards the vote is more than the vote in the first ward, and though the vote are running at a slight second in the third ward at the time this goes to press, there is some chance of their gaining their ground and getting an even break. Hunt has a substantial lead in each of the wards for governor. The remainder of the state and county ticket are safe for the democrats who will carry by a good margin.

Following is the official total vote from the first ward, finished late last night and returned to the Review:

For Judge Supreme Court:	
Armstrong, Thomas	14
Bennett, Walter	104
Crowe, W. S.	16
Cunningham, D. L.	293
Franklin, Alfred	238
Hayes, P. H.	91
